

# Versana Premier™ Lotus

Easy to use. Easy to learn. Easy to diagnose.

Some innovations feel so natural from the start,  
you wonder how you ever lived without them

# Versana Premier Lotus

Easy to use. Easy to learn. Easy to diagnose.

Investing in and introducing a new ultrasound system to your practice can be a significant and challenging decision. Versana Premier Lotus helps clinicians enjoy the sophisticated yet familiar simplicity of an ultrasound system that feels natural from the start, making it easier than ever to deliver quality care to a wide range of patients every day.

Easy to use and easy to learn, Versana Premier Lotus lets clinicians easily and confidently diagnose a wide range of conditions. Whether you're working in an imaging center, general practice clinic, family doctor's office, or hospital, you can count on Versana Premier Lotus as a reliable and user-friendly ultrasound system designed to empower clinicians, enhance their efficiency, and provide optimal care, all with effortless productivity in mind.

# Easy to use

From its design to its automated tools to its reliable service and support, Versana Premier Lotus delivers an effortless user experience.

## Transform your workflow and accelerate scanning with advanced, intuitive features

 Experience up to 38% faster workflow with *Whizz clinical features*, saving time and simplifying workflow<sup>1</sup>

 Create your own report templates with *Whizz Report* and import and display clinical guidelines for references while scanning with *Whizz Notes*

 Use new on-console features, such as *Assistant*, to fit seamlessly into your daily routine

## Advanced design and capabilities to simplify operations and meet the needs of your practice and patients

 Easily move the system around your facility with its portable design that is equipped with enhanced ergonomic updates, improved accessory management, and extended battery-powered scanning

# Easy to learn

Versana Premier Lotus offers an array of clinical and product education resources to help you and your staff master the system quickly, broaden your range of exam capabilities, and spend more quality time with your patients.

Robust educational support, advanced tools, & reliable service provide a comprehensive solution for users' practices both now & in the future

Completely backed by GE HealthCare for education and service with *Versana Club*, *My Trainer*, and *eDelivery*

1 — Maximize your efficiency and train new users with built-in reference and guidance tools, including *Scan Assistant*, *Scan Coach*, and *Scan Coach Voice Comments*

*My Trainer* on-board help walks you through the setup, operation, cleaning and maintenance of your Versana ultrasound system. It helps you get started with your Versana system quickly

# Easy to diagnose

Powered by *VisionBoost Architecture*, Versana Premier Lotus is designed to provide optimal image quality day after day, patient after patient so users can accurately make decision and reach a diagnosis with the greatest of ease.

## Capture exceptional images with advanced clinical features to address challenging cases across clinical specialties and care areas

See faster *3D/4D Renderings\** supported by an updated graphic and processing unit

Optimize images while scanning with *Whizz* clinical features and easily improve Color Doppler with *Whizz Color Flow*

Effortlessly obtain the render start position with *Whizz RenderLive* to easily separate solid tissue in front of rendered objects for Static 3D/4D imaging

Shift between Smooth Mode and Sharp Mode to view image features as preferred with *Whizz Easy Style*

Evaluate blood flow for possible vessel-wall irregularities and more with *B-Flow*, *B-Flow Color*, and *Power Doppler Imaging*

Leverage a wide range of transducers, including *L4-20t-RS* and *IC9-RS*, which produces high resolution images across clinical specialties or care areas

## Reduce your scan time with automated productivity and simplified measurement tools

Make automated 2D Measurements and Volume Calculations with *Auto Contour* to measure nodules, *Auto Bladder*, *Whizz Follicle*, and *Auto-IMT*

Assess liver, thyroid, and breast nodules with Productivity Packages leveraging *LI-RADS®*, *TI-RADS®*, and *BI-RADS®* criteria

Use automated labeling of the right kidney, gallbladder, and liver in the RUQ with *Whizz Label*

Easily compare current and prior exams and track treatment progress with *Follow-Up Tool*

Effortlessly adapt to various care scenarios with a wide range of probes\*\*

\*Compared to Versana Premier V2

\*\*Probes may not be available in all countries and regions

## Ergonomics & hardware updates

\*Decibel range of 21.96 to 39.51.  
Equivalent to Versana Premier V2

## Versana Premier Lotus

is an intelligently productive, user-friendly ultrasound system with multiple exam protocols, tools, and advanced applications to streamline processes so it's easier than ever for you to deliver quality care to your wide range of patients every day.
